**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

### **Notice of Non-Compliant Appeal Brief**

The brief does not contain arguments of the appellant with respect to each ground of rejection presented for review, and the basis therefor, with citations of the statutes, regulations, authorities, and parts of the record relied on as required by 37 CFR 41.37(c)(1)(vii).

Each ground of rejection must be treated under a separate heading. For each ground of rejection applying to two or more claims, the claims may be argued separately or as a group. Any claim argued separately should be placed under a subheading identifying the claim by number. A statement which merely points out what a claim recites will not be considered an argument for separate patentability of the claim. See 37 CFR 41.37(c)(1)(vii).

Here, the Appellant has grouped claims 115-146 and 148-182 together as a group argument. However, if the Appellant presents such a large number of claims before the Board of Appeals, the Appellant should argue how the each depending claim is patentable.
